PROFILE

I am a first-year computer science student with six months of experience as a software developer intern. Strong problem solving skills along with a great desire to learn and grow in the software development field.

SKILLS

- Python
- Java
- HTML & CSS
- SQL
- Git & GitHub
- Jira
- Flask
- Linux OS

EXPERIENCE

SITE REALIABILITY ENGINEER INTERN

Bank of America - Jersey City, New Jersey

February 2022 - August 2022

- Created python ansible database module plugin
- Modified python script from version 2.7 to version 3
- Enhanced email alerting application involving creating and modifying SQL queries

PROJECTS

AUTOMATED WEATHER NOTIFIER APPLICATION

Coded in python, this program solves a task I repeated every morning, checking the weather. This weather application sends the user the current temperature though SMS messages.

EDUCATION

UNION COLLEGE
